Topic: Group Discussion 2023-24

### Brief Report:

The Group Discussion process begins with the selection of participants for the two groups. Once the group is finalised, topic of the discussion will be given and then the groups have to present their views about the topic and the process of discussion begins.

Group Discussion helps in generating thoughts, improve the ability of critical thinking, improve communication skill, leadership skills etc.

The whole idea of group discussion is to provide a common platform to share the ones ideas & thoughts.
