

Date: 14-3-2017

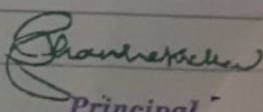

Topic: Group Discussion

Brief Report:

GD usually features 10 to 15 participants. The GD process begins by the announcement of the topic to the group, which is followed by a participation time of 3 to 5 minutes.

During the year 2016-17, Group Discussion was conducted for students. The whole idea is to bring together a set of people ^(students) on a common platform to share their ideas, thereby giving an opportunity to exhibit not only their knowledge, but also to understand and enhance their learning by observing the thoughts of other people.
