Course Profile

Introduction :

The process of creatively applying the necessary profession skills in organising a focused event for the target audience and achieve their desire.

We all love to celebrate and need little reason to celebrate – whether it be winning the World Cup or the Common Wealth Games or birthdays, Graduation party, weddings etc. in the family. Celebrations are an integral part of our life and often a symbol of happiness. However, modern lifestyles, busy work schedules, smaller families and participation of women in the workforce, have resulted in less manpower and time to plan, organise and execute such events. Hence many people prefer to use the services of an expert (who has the know-how and takes care of the minutest details) to plan and execute such events. Nowadays organisations and institutions also hire the services of such experts to organise a variety of events. This is referred to as 'outsourcing'. ~~Experts who undertake this work are known~~ ~~Event Management Chapter 19 344~~ ~~Human Ecology and Family Sciences – Part 2 as event planners or event managers.~~ They provide consultancy and undertake all tasks right from the planning stage till the final execution of the event. Involvement of such experts has made celebrations and occasions easier, enjoyable and stress-free for the client.
